

COLLISION REPAIR & REFINISH TECHNOLOGY TRAINING

If you have the passion to transform something good-as-gone into something good-as-new, you're ready for UTI's Collision Repair & Refinish Technology (CRRT) program. The CRRT curriculum is designed through our relationship with I-CAR, the industry provider of collision repair training standards defined by car manufacturers, insurance companies and employers.

COLLISION REPAIR & REFINISH TECHNOLOGY PROGRAM

Receive hands-on training on state-of-the-industry tools and equipment from ASE-certified instructors with real-world experience.¹ Collision repair training covers:

- + Non-structural repair
- + Structural repair
- + Refinishing
- + Mechanical & electrical repair
- + Damage analysis, estimating & customer service
- + Auto customizing

HOW YOU'LL BE RECOGNIZED

UTI collision repair graduates earn recognition of their high level of training as I-CAR ProLevel individuals and receive I-CAR certificates for:

- + Non-Structural Technician Level 1
- + Steel Structural Technician Level 1
- + Aluminum Structural Technician Level 1
- + Estimating Level 1
- + Refinish Technician Level 2

Graduates of the program that includes Estimating earn the I-CAR certificate for Estimator ProLevel 1. In addition, those who earn the Axalta Refinish Certification receive Refinish Technician ProLevel 3 status to become Platinum individuals.

WHY PLATINUM LEVEL STATUS IS IMPORTANT

Collision repair shops need Platinum level technicians to achieve Gold Class status and receive Direct Referral Program (DRP) business from insurance companies. This makes Platinum individuals sought-after and valuable to employers. As part of their training, students also will learn about:

- + Brakes
- + Climate control
- + Electronic fundamentals

To learn more, visit UTI.edu/Collision

OUR ALLIANCES

UTI has relationships with industry leaders, including:

- + 3M
- + Audatex
- + Axalta Coating Systems
- + CCC Information Services
- + Chief Automotive Technologies
- + Lincoln Electric
- + Snap-on[®]

PROGRAM HIGHLIGHTS:

ESTIMATING

- + **Damage Analysis:** Complete damage analysis estimates on vehicles using computer-based software, documentation, blueprinting and inspecting repairs for quality control.
- + **Customer Service:** Learn collision facility operation, insurance relations in the collision industry, customer communication, insurance and how to work with adjusters.

AUTO CUSTOMIZING

- + **Custom Paint:** Learn the fundamentals of airbrush techniques, special-effect paint techniques, hand pinstriping and glass etching.
- + **Custom Body:** Receive special training in auto body customizing, including frenching antennas and license plates, fabricating roll pans and shaving door handles.

Our CRRT programs are accredited by the ASE Education Foundation in recognition of our courses meeting the highest possible standards.

UTI GRADUATES CAN RECEIVE ADDITIONAL INDUSTRY CERTIFICATIONS:

- + Axalta Cromax Pro Certified Refinisher
- + Safety & Pollution Prevention
- + 3M Plastics and Composite Repair System
- + Chief Certification
- + EPA 609 A/C Certification
- + I-CAR Steel and Aluminum MIG Welding Certification
- + Productivity Certification
- + EPA Rule 40 Part 63 Certification

WHAT ELSE YOU GET

CRRT students receive additional benefits:

- + Options to complete I-CAR modules to earn employer-recognized certificates
- + Experience with estimating software and job blueprinting
- + Experience with industry-standard equipment and specialty training aids:
 - Custom paint and body techniques
 - MIG and squeeze-type spot welding equipment
 - Chief LaserLock computerized measuring
- + I-CAR course material for reference online upon graduation
- + Course materials and tools to use at school

WHEN YOU'RE READY TO START

JOB OPPORTUNITIES

Collision repair graduates are employed in these positions:²

- + Non-Structural Technician
- + Refinish Technician
- + Steel Structural Technician
- + Aluminum Structural Technician
- + Electrical/Mechanical Technician
- + Estimator
- + Auto Physical Damage Appraiser
- + Parts and Equipment Manager

WHERE YOU'LL TRAIN

The CRRT program is available at UTI campuses in Houston and Long Beach.

*UTI graduates come to our facility ready to work. They're on time; they've been taught about punctuality. They've been taught about teamwork and having a great work ethic and attitude. I think the effect that UTI has on their students' lives is a very positive one. They give them an opportunity to get a career in an industry that is growing. We definitely prefer to hire UTI graduates.**
